## Popular Wagers

Win, Place, Show - These are the "straight bets"; WIN means you're wagering on a first-place finish; PLACE means you bet that your runner will appear first or second; SHOW means you're hoping for a top-three finish.

Pick 3 and Pick 6 - Predict the winners of three or six consecutive races. These are difficult to pick and 'carryover pools' in the Pick 6 can get quite high when no one has been successful for a while.

Daily Double - To win, pick the winner of the first and second race. Your bet must be placed before the start of the first race

Quiniella - To win, pick two runners to finish first and second—in either order, in any single race.

Exacta - Like the Quiniella, except the two runners you pick must finish in exact order.

Superfecta - It says "super," so you know it's a big one to win. A straight Superfecta is played by picking the first *four* horses to finish in exact order—not easy, but an enormous payoff for winners.
