HOW TO PLAY KENO

Mark one to 15 numbers on a Keno ticket, then choose your bet amount (minimum of \$1 per game) and the number of games you would like to play the chosen numbers on. Give your ticket, and the amount you are wagering, to one of the Keno Writers, or you can use any of the three EZ KENO® Kiosks throughout the casino floor. For your convenience, the kiosks allow you to replay and check your ticket when Keno is not open.

MULTI-RACE KENO

1 - 20 Games

Multi-Race tickets played for one to 20 games must be collected within 30 days of the last game played in the series.

By playing multiple games, your ticket is tracked by its serial number and recorded electronically.

Your tickets cannot be redeemed until the end of your games, unless there are special circumstances or an emergency.

(Must be redeemed within 30 DAYS)

21 - 1,000 Games

This option allows you to play anywhere from 21 to 1,000 consecutive games without actually being present. Therefore, you may purchase a ticket for 21 games or more, leave the Keno Lounge, and go play other games without the concern of having to ensure you cashed in your ticket prior to going home for the night. With playing at least 21 games, you have up to a year from the time your games are completed to cash in your ticket.

(Must be redeemed within ONE YEAR)

DON'T FORGET

Any errors must be fixed prior to the start of your first game. Angel of the Winds Casino Resort is not responsible for any Keno Writer or Runner errors.

All tickets are paid according to the computer-generated ticket created by the Keno Writers or kiosk.

All tickets are eligible for a refund; however, you must request for a refund before the start of the first game.

In the event of computer and/or operator error, the balls drawn during live games will be the deciding factor of official results. Therefore, if the screen states a given number, yet the number does not display in the tube, the game will need to be adjusted prior to finalization.

CHECK YOUR TICKET FOR ERRORS!

TYPES OF TICKETS

Straight Tickets

A Straight ticket is marked with anywhere from one to 15 numbers.

Way Tickets

A method of placing wagers on different groups of numbers on a single ticket. Mark the numbers you want to play and group them together by circling them.

Quick Pick Tickets

Let the computer pick your numbers for you! Simply mark your ticket with “QP” and the number of spots you would like to play.

Hot Pick Tickets

A Hot Pick ticket is similar to a Quick Pick ticket, but instead of having random numbers, the computer will pick the most frequently pulled numbers for you. Simply mark your ticket with “HP” and the number of spots you would like to play.

Cold Pick Tickets

A Cold Pick ticket is the opposite of a Hot Pick ticket. Instead of picking the hottest numbers, the computer will choose the coldest numbers (*or the ones that have come up the least*). Simply mark your ticket with “CP” and the number of spots you would to play.

WAY TICKETS

Way Tickets

A Way ticket allows for you to play multiple tickets in one. You do this by grouping multiple numbers together and playing off of the groups that you have created.

Ways

A Way refers to the number of methods that you could play on your ticket.

Combination

A Combination is two or more groups combined on a Way ticket in order to form another larger Way.

Kings

A King is a single number circled on a ticket that may be combined with other groups in order to form larger groups.
